Date Collected:		

Samples (*please circle one*):

- Is a list of samples and sample descriptions attached? YES NO EMAILED
- Samples are packaged and labelled in accordance with CA12 requirements (see Page 2)? YES NO

Declaration:

I declare the above samples have been taken from a phylloxera exclusion zone (PEZ).

Signed: _____ Date: _____

AWRI USE ONLY (*please circle one*)

- Condition on receipt: FROZEN THAWED FRESH
- Samples and sample list: CORRECT INCORRECT
- Tracking record or con-note: YES NO

Checked by (AWRI use only):

Date:

Packaging and labelling of samples

- All samples should be double-bagged and sealed to prevent leakage.
- Samples should be placed in a durable container with an ice pack to keep cool and prevent damage in transit.
- Each sample should have a label affixed with a unique sample description or code.

The outer container should have:

- A label stating the package contains Quarantine Material and a brief description of the contents (e.g. canes)
- Details and accreditation number of the AWRI (as receiver)
- Contact details of the sender
- A completed copy of the AWRI Plant Material Movement and Declaration Form (Virus testing).

Samples should be transported by courier or personal carriage

Please note: This document is suitable for grapevine material coming from **PEZ only**. An up-to-date outline of these zones can be found on the Vinehealth Australia website

<http://vinehealth.com.au/industry/resources/maps/phylloxera-management-zones/>

or the Agriculture Victoria website:

<https://agriculture.vic.gov.au/biosecurity/protecting-victoria/victorian-viticulture-biosecurity/compliance-movement-conditions/phylloxera-management-zones>

In accordance with the AWRI's CA12 certification and the SA Plant Quarantine Standard, a disinfestation protocol is required to be applied to any samples from phylloxera risk or infested zones (PIZ and PRZ). These procedures may interfere with virus levels within plant material and as such are not compatible with virus testing. Any samples received by the AWRI from PRZ/PIZ will be destroyed.

Conditions

A copy of the attached form and CA12 certification certificate MUST also accompany the samples.

Samples not meeting the above conditions may be isolated and possibly destroyed without notice.

CERTIFICATE OF ACCREDITATION

PLANT HEALTH ACT 2009 Section 16

Government of South Australia
Biosecurity SA

THIS CERTIFICATE CERTIFIES THAT

Australian Wine Research Institute

IP # S1479

ALSO TRADING AS;

Australian Wine Research Institute Ltd, AWRI

IS ACCREDITED TO OPERATE;

Procedure for Importation of State Quarantine Risk Material by
an Accredited Laboratory

PROCEDURE CODE

CA12

CA ARRANGEMENT (CAA) NUMBER S1479-01-CA12

AT THE FOLLOWING ADDRESS

Cnr Paratoo Rd & Hartley Grove
URRBRAE SA 5064

UNDER THE FOLLOWING CONDITIONS or RESTRICTIONS

PRODUCE TYPES	CHEMICALS USED	OTHER
Diagnostics Samples, Fruit, Vegetables, Table Grapes, Wine Grapes	Not Applicable	Includes IRO1 - Import Registration

CONDITIONS

For the purposes of sections 6.3 and 6.4 of the CA12 (Laboratory Accreditation for the Importation of Grapevine, Soil and Plant Diagnostic Material Operational Procedure) this Certificate of Accreditation fulfils the requirement for an annual Plant Health Import Certificate for grapevine diagnostic material from a Phylloxera Infested Zone (PIZ), a Phylloxera Risk Zone (PRZ) or Phylloxera Exclusion Zone (PEZ).

The Accredited Person is accredited for the Certification Assurance Arrangement indicated above and must operate in full accordance with the requirements of the associated ICA/CA Operational Procedure.

The Accredited Person is responsible to ensure staff undertaking responsibilities required under this accreditation are adequately trained to do so.

The Minister shall determine the frequency of audits required and authorise persons to conduct the audits.

The Minister shall set fees for audits and inspections and the cost shall be borne by the Accredited Person.

The Accredited Person shall prominently display this certificate at the accredited facility and return it to PIRSA on request or after cancellation of the accreditation.
